**The Executive Committee of FISAF International discussed the immediate future of the FISAF European Championships**, at length at a Skype meeting, held on the 18<sup>th</sup> June 2019.

While FISAF International have decided not to organise this Championship for 2020 and 2021, we are excited to see what other possibilities will develop, in terms of opening up the opportunity for our members to host an event. Now you are able to provide what you feel would suit the European, or perhaps World, FISAF population more during this time of year. This does not have to be in the form of an official FISAF International Championship, it could be; a 'County Challenge', a Grande Prix, (where you invite people from outside of FISAF), an 'Invitational Event', an Open National Event with only chosen categories, the possibilities are endless. FISAF International are very willing to support any initiative to encourage competition for all our members, in the form of assisting with Judges, planning, creating budgets, etc

Our rationale for the decision not to organise a European Championship is due to the following;

- FISAF International is just that, an international organisation, and we would like to work more toward creating a spectacular World Event, for all of our members.
- While there has been growth in many of the countries with smaller memberships, over the past years, it is noticeable that the main number of entries for the European Championship is made up from only two countries.
- We would like to give our members the opportunity to host events as a build up to the World Event but also to provide more opportunities for our athletes to compete.

Thank you for your support and we look forward to helping you should you wish to run future events.

## **Judges panels for Worlds 2019 in Leiden**
